Mouchel Parkman and Chris Britton Consultancy announce a joint seminar programme on effective highways asset management strategies in the light of the County Surveyor Society (CSS) Framework and new guidance on asset valuation. Exor Corporation and Oracle are supporting these events.

Local Authorities will need to demonstrate sustainable improvement in practices and service delivery under the CSS Framework. An effective Highways Asset Management Plan (HAMP) and an accurate assessment of asset value (calculated using the newly-launched CSS Guidance) are cornerstones of meeting these challenges.

The Seminar programme will address these in the context of other external challenges, such as the Gershon Report and the Traffic Management Act (TMA).

John Amos, Technical Director Mouchel Parkman, said in relation to the seminar announcement. "Getting the right advice is crucial for authorities and with Chris Britton Consultancy, Exor and Oracle participating in this programme we are able to thoroughly address the issues and offer a rounded viewpoint. We will look at asset management requirements from the goals and objectives of the asset valuation and management plan through to the IT requirements in a practical way."

For further information go to: [www.exor.co.uk/download/AM.doc](http://www.exor.co.uk/download/AM.doc)

## Areas to be addressed:

- ◆ Review of implementation of the CSS Guidance on Asset Valuation
- ◆ Implications on key assets
- ◆ Implications on Asset Management Systems
- ◆ Pointers on gathering historical costs
- ◆ Implications on Finance, budgets and funding
- ◆ Implications of contracts and risks
- ◆ Case Studies – examples from the real world

**Dates:**

- ◆ Wednesday 14<sup>th</sup> September                      **Oracle Manchester**
- ◆ Tuesday 20<sup>th</sup> September                        **Oracle Birmingham**
- ◆ Wednesday 21<sup>st</sup> September                    **Oracle London**

Places are limited and will be allocated on a first registration basis and limited to two people per-organisation. This event is primarily aimed at Local Authorities and Central Government Agencies, and it may be necessary to prioritise registration on that basis. For a registration pack and details please contact the event administrators at Exor; e-mail [ahunt@exor.co.uk](mailto:ahunt@exor.co.uk) or visit [www.exor.co.uk/download/AM.doc](http://www.exor.co.uk/download/AM.doc)

**About Mouchel Parkman**

Mouchel Parkman is a leading professional support services company operating across the UK. It delivers high value commercial, financial and technical expertise to clients in the public and private sectors, helping them to provide better everyday services to customers and communities. It has particular expertise in the long-term operation and management of infrastructure and assets, working in partnership with clients. Employing 5,000 staff, it is one of the UK's leading highway companies, supporting the owners and operators of highway assets. It manages, maintains and improves thousands of kilometres of motorway, trunk roads and local road assets, more than any other consultant.
